

As She Viewed It.
The man was nearly out of breath. When he could speak he said to the wondering woman:
"I have just saved your husband from a watery grave. He threw himself into the river, and at the risk of my own life I jumped in and saved him."
"Well," she said, as she resumed her ironing, "I always feared that you'd try to be revenged for being refused by me seven years ago, but I never dreamed that your hate would lead you to do such a thing as this."
Then she began singing a lullaby to the bare legged little boy who was rolling on the floor.—Exchange.

MUSIC FOR NERVOUSNESS.
Scientists claim that music has power to soothe the nerves. But the quickest way to cure nervousness is to strengthen the nervous system. We know of nothing which will accomplish this quicker than Hostetter's Stomach Bitters. Do not take a substitute. See that a private Revenue Stamp covers the neck of the bottle.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

She Kept Cool.
She was a young woman with a vivid imagination and a rapid fire vocabulary.

"Oh," she said to a young man recently, "I did come so near seeing a dreadful accident yesterday! It was just too shocking!"

"How did it happen?" queried the youth.

"Why, you see, it was like this: There was a horse coming along at the corner of Prospect and Case—a horse and a buggy—and they didn't see the motor was so close—that is, the people in the buggy didn't see it—there was a woman driving—a woman and two children, I think—and she tried to drive the horse across the track—the buggy had a top to it, and she didn't hear the bell—and the motor came right up and pushed against the buggy and pushed it along, and the horse jumped a little, and the woman screamed, and the children—well, I couldn't hear the children—but the man wasn't strong enough to stop the motor, and it pushed the buggy right off the track!"

"And where were you all this time?" inquired the interested youth.

"I stood by the curb."

"Yes."

"I was so nervous, you know."

"Yes."

"And I ate chocolate creams just as fast as I could and prayed."

"Necessity is the Mother of Invention."

It was the necessity for a reliable blood purifier and tonic that brought into existence Hood's Sarsaparilla. It is a highly concentrated extract prepared by a combination, proportion and process peculiar to itself and giving to Hood's Sarsaparilla unequalled curative power.

DANGER FROM HAWAII.

Dr. Senn on Need of Precautions Against Spread of Leprosy.

Dr. Nicholas Senn of Chicago, who was chief of the operating staff of the volunteer army in Cuba during the late war, returned from Hawaii the other day thoroughly convinced that annexation was a good thing for both countries and that the Hawaiians were well fitted for citizenship. However, he is inclined to believe the much more extended intercourse that will soon grow up between the United States and Hawaii and the Philippines will lead to an increase in the number of leprosy cases in the United States and

Dr. NICHOLAS SENN feels that the United States government may soon have to take definite restrictive measures.

"Leprosy among the native Hawaiians has made fearful ravages," he said. "Out of the 30,000 Hawaiians almost 1,200 have the disease, but the government is carefully isolating the cases and is meeting with great success. One hundred thousand dollars a year is spent on the leper colony, and the measures, while strict, are most humane. Very few whites have the disease. In the United States there are probably 70 lepers in two small hospitals, but this number will probably increase. Probably legislation will be necessary, and the marine hospital service seems the best agency to use."

Dr. Senn examined United States troops on the islands and reports them in excellent health. He found the men contented and on good terms with the natives.

Siam's Million Priests.

According to a lecture on Siam delivered recently in London by John Bartlett, that country has more than its share of priests. The population of Siam, he said, amounted to about 6,000,000, and a curious feature was the large preponderance of Chinese, more especially in Bangkok. The Chinese practically controlled all the trade and commerce of the place. There were hardly any Siamese merchants. One million of the people were in the priesthood. He had traveled up river through the main territory of Siam for a distance of 350 miles, and during the journey it had been absolutely impossible to get out of sight of a temple. In each temple there were from 10 to 300 priests, supported entirely by the people. Of the 1,000,000 priests only 300,000 were actively engaged. The remaining 700,000 were passing through the priesthood.

He Couldn't Reach It.

The following anecdote concerning the famous lecture on "The Holy Land," which, it is said, ex-Governor Oglesby never succeeded in delivering is prepared by it, is related in Franc B. Wilkie's pamphlet on the life of the governor:

He had been invited to deliver this lecture at a country town in Illinois and accepted. A large crowd gathered to hear him, and he was greeted with loud applause as he stepped forward to lecture. He was only to speak for one hour and said in beginning he would preface his lecture with a few remarks on his experience in Europe. At the end of 2 1/2 hours he was still talking about Europe, and because the people seemed so delighted he announced that he would deliver the lecture the next evening.

The same people came back, re-enforced by many more, and at the end of another two hours he stopped without having said anything about the Holy Land, except to announce that as his subject. The third night there was a monster gathering, and Governor Oglesby, after finishing up Europe, started to say a few words about Egypt and the Nile before beginning his lecture. At last he looked at his watch and, with a look of astonishment, turned to one of his friends on the platform and said:

"Well, here it is 11 o'clock, and I'll be hanged if I've got to the Holy Land yet!"—Chicago Tribune.

The Housewife's Burden

Mrs. Ada M. Herr, of 430 N. Charlotte St., Lancaster, Pa., suffered terribly from female disorders. Her nerves became unstrung, she endured intense pain, the slightest labor worried her and household duties became a burden. Frequent fainting and dizzy spells would come upon her and she would fall prostrate in a swoon. After trying several physicians without success Mrs. Herr began taking Dr. Williams' Pink Pills for Pale People. She says: "The pills brought immediate relief, and after taking six boxes I was cured. Dr. Williams' Pink Pills for Pale People had done what all previous treatment had failed to do." From the Examiner, Lancaster, Pa.
